

## What is a Mill Levy?

A mill is one-thousandth of a dollar. Therefore, there is \$1.00 of tax per thousand dollars of assessed value for each mill levied. Mill levies vary depending what district the property is in. For example, property located outside the city limits is not assessed a city levy but is assessed levy for fire protection. Various entities within a district are legally allowed to charge mills against property, subject to budget needs and limits. Following is a list of entities that levy mills in Uinta County:
